

<b>Product Change Notification</b>		<b>Date</b> March 23, 2020
<b>Product</b>	Digi Connect ME 2MB (Plug & Play variants)	

**Reason for Change**

<input type="checkbox"/> Technical Requirement	<input type="checkbox"/> Product Transition
<input type="checkbox"/> Customer Requirement	<input checked="" type="checkbox"/> Product Discontinuation
<input type="checkbox"/> Quality Improvement	<input type="checkbox"/> Product Enhancement
	<input type="checkbox"/> Other (Brand Change)

<b>Summary</b>	<p>This is an update to previously reissued PCN #191105 that was sent out on December 4<sup>th</sup>, 2019. Updates were made on how and when samples are available and new part numbers for 4MB models.(Changes in Red)</p> <p>Digi is announcing the end-of-life (EOL) of the Connect ME 2MB Plug &amp; Play variants and recommending customers migrate to Connect ME 4MB variants which are drop-in compatible. The Last Time Buy date for Connect ME 2M Plug &amp; Play is March 31,2020.</p>
----------------	--

<b>Reason</b>	<p>Digi is committed to supporting hardware and software products for the long term. This includes periodic firmware updates to keep up with the changing threat of new vulnerabilities within our products. This also includes new features that may be required due to changing legislation.</p> <p>As of January 1, 2020, the California Consumer Privacy Act SB-327 requires all cellular and internet connected devices manufactured after that date to have unique default passwords for each device. This requirement increases security and reduces the likelihood of intrusion and malicious attack. Many Digi products already comply and have unique passwords per device. Digi is updating all remaining products to come into compliance.</p> <p>Due to limited memory resources, the 2MB variants cannot be updated to address these new regulations or future security vulnerabilities and we have made the decision to end of life the product.</p> <p>We also would recommend that the Connect ME 2MB version should not be sold or used in the State of California, or within a product that can be sold or used in the State of California. The Connect ME 4MB version does not have this restriction.</p> <p>Digi is committed to supporting a secure network stack, applications, and features within the Connect ME product family. This is to include future firmware versions for years to come. We recommend all customers conduct a risk review of the security of their end products to make sure that the level of security meets the level needed for their end application.</p>
